Most pills and medicines in use for constipation, in the long run, "make a bad matter worse," Unlike such agents, Dr. Pierce's Pellets exert such a tonic or strengthening effect upon the membranes of the stomach and bowels, as to produce lasting benefit. Their use can, therefore, be gradually discontinued. With most pills the longer they are taken, the more dependent upon their use the patient becomes. Not so with the "Pellets." Their secondary effect is to keep the bowels open and regular, not to further constipate. Hence, their great popularity with sufferers from habtual constipation.

The Pellets cure costiveness, or constipation, biliousness, sick and biflous headache, dizziness, sour stomach, loss of appetite, coated tongue, indigestion, or dyspensia, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Markets of Galveston and Chicago Com-pared for the Territory, The Guthrie Capital discussing the

"The deep water harbor at Galveston is already a benefit to Oklahoma. This is not due to the closer deep water than by way of the trunk lines east to the Atlantic seaboard or to New Orleans. A talk with the wheat buyers reveals the fact that all of that cereal is consigned for export at Galveston. Mr. W. H. Coyle, of the Coyle Mercantile company, gives some interesting figures. For instance, No. 2 hard wheat for export at Galveston brings 57% cents f.o.b. there while at Kansas City it is only quoted at 48 to 50 cents. This is true in spite of the fact that the freight and commission to the elevators at Galveston is 17 cents, while to Kansas City it is only 14½ cents. Making Kansas City wheat at 49 cents and Galveston 57% cents and deducting the freight and commission nets Kansas City 35½ cents and Galveston 40½ cents, a difference of 5 cents in favor of Galveston. By taking the Chicago quotations it is found that Galvesion pays 5 cents more for export wheat than Chicago. This shows that Oklahoma get 5 to 10 cents doctrine proposed by the hetter prices for its wheat on account of the Galveston deep water harbor.

"Mr. Coyle states that most of the wheat shipped from here is bought for the difference in price. By shipping to the gulf they can pay higher prices to the farmers than by way of Kansas (City. A FISHERMAN'S BALKY HORSE. The One Occasion on Which the Horse

Found a Master. "I once knew a fisherman," said the speaker, "who had a horse that balked on all sorts of occasions, and when he stopped nothing on earth could move him till he got ready to go. He might stop, for instance, going along the shore with a wagon load of fish, and then the fisherman would unhook him and back the wagon away from him, so that he couldn't book that to pieces, and leave
